## *These Olive Trees*

**Oraib made a promise to return & harvest the olive trees she had planted, before her family's displacement. Help the Olive Trees grow by coloring the olives, cutting the olives out and gluing them onto the tree**

According to the author, "the olive tree is a symbol of Palestinian resistance, longevity, and identity. It is reflective of the importance of our ancestral lands to who we are. Our relationship to community, culture, and place sustained by the Land that has always sustained us.
